About KampusVire

Ease your student and campus life with KampusVire

A complete application that provides a better money management system, essential campus navigation, easier buying options, easier lending of money/items, a virtual ledger, and an accountable payment system all integrated under one roof.

User can check out any shop / canteen or go it's location via the map provided.

The user can then place an order from the canteen / shop and pay via cryptocurrency or virtual wallet.

Seamless borrowing system is set in place which requires just a QR code.

Digital records of every transaction is available to both the entities.

The user can also choose to split a bill among his/her friends.

The user also has the option to credit the residual amount during a transaction in his/her wallet.

Easier food options

Check out active hours and product availibility

So that you don't get stuck and look out for options.
